## CLINICAL NURSE EDUCATOR

To Whom It May Concern,

I have been accepted into the Master of Science in Nursing program at Worcester State University and will be pursuing the Nurse Educator track. I am a member of BONS and see that you offer scholarship support to members attending graduate programs.

My diversified background in nursing has fostered a strong extensive knowledge base and skills which are necessary for education. I have trained across a variety of specialties across the country ranging from patients across the lifespan. I currently work as a Clinical Nurse Educator for Oncology Research Nursing at Dana Farber Cancer Institute. My most recent nursing experience leading up to my position involved caring for oncology patients in the phase 1 targeted and immunotherapy trials.

The high pace of a teaching environment, particularly in the hospital setting, requires upholding educational standards consistent with professional practice and policy. I contribute to initiatives supporting this practice, educating not only nurses but also other interdisciplinary staff. I believe that my well demonstrated interest in nursing education related to oncology and participation in my graduate program will help me grow in my nursing experience.

My goal is to incorporate what I learn from the program to my current role and practice as a Clinical Nurse Educator. The program truly is the perfect fit for my educational trajectory. I am writing to you in hopes that the BONS scholarship will aid me in taking the next exciting step in my career and education. During my undergraduate studies, I incurred unexpected tuition increases and subsequently took an incredibly high interest rate loan related to not having a cosigner. I have put off graduate school due to the significant financial cost and tuition burden from my undergraduate program. With your help, I hope to attend WSU in May of 2022.

Thank you for your time and consideration.

Sincerely,

*Jennifer Hedglin*

Jennifer Hedglin BSN, RN
